

Will this Go On

Music: Nicolas Kristoffersen

Lyrics: Nicolas Kristoffersen

G / Bbmol / C / D

1pre:

Always searching for answers

We dig into ourselves

Looking for reason

Hard times will always stress this phenomenon

And as no-one has ever really found a lasting answer for the great questions of existence.

There is nothing to do but be strong and carry on.

Evolution brought us all this way

But in the end what have we done

Nothing has ended not begun

Born to live but not to understand

We will keep on searching every day

No-one has ever found a way

CH:

Will this go on

Tell me it's wrong

Will this go on and on and on

We are still killing every day

Asking for mercy when we pray.

Will this go on

Tell me it's wrong

Will this go on and on and on

We are still killing every day

Asking for mercy when we pray.

Will this go on

Tell me it's wrong

Will this go on and on and on

We are still killing every day

What will end this misery.

Will this go on and one and on and on.

2pre:

In need of answers people get easily vulnerable and easily persuaded to follow a leader.

The more mysterious and hard to believe, the more we want to.

And searching inside our hearts

We are all capable of killing for what we believe.

But do we really want to.

2:

History contains the naked facts

We have been fighting for a life

That lies beyond the day we die.

Born to live and not to kill again.

Is there a hope for humankind

Will we discover why we are blind.

CH:

Will this go on

Tell me it's wrong

Will this go on and on and on

We are still killing every day

Asking for mercy when we pray.

Will this go on

Tell me it's wrong

Will this go on and on and on

We are still killing every day

Asking for mercy when we pray.

Will this go on

Tell me it's wrong

Will this go on and on and on

We are still killing every day

What will end this misery.

Will this go on and one and on and on.
